

Package ‘xlum’

April 4, 2022

Type Package

Title Read, Write, and Convert xlum Data

Version 0.1.0.9000-17

Author Sebastian Kreutzer [aut, cre] (<<https://orcid.org/0000-0002-0734-2199>>)

Maintainer Sebastian Kreutzer <sebastian.kreutzer@aber.ac.uk>

Description Support for the xlum-file format for exchange and long-term preservation of luminescence data.

License GPL-3

Depends R (>= 4.1),
utils

Imports methods,
xml2 (>= 1.3.3)

Encoding UTF-8

Language en-GB

LazyData true

RoxygenNote 7.1.2

Collate 'read_xlum.R'
'utils.R'
'validate_xlum.R'
'xlum-package.R'

R topics documented:

xlum-package

Read, Write, and Convert xlum Data

Description

Support for the xlum-file format for exchange and long-term preservation of luminescence data.

Package maintainer

Sebastian Kreutzer, Geography & Earth Sciences, Aberystwyth University (United Kingdom),
<sebastian.kreutzer@aber.ac.uk>

Funding

Between 2020–2022, the work of Sebastian Kreutzer as maintainer of the package has received funding from the European Union’s Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 844457 (CREDit).

read_xlum

Import xlum files

Description

Imports xlum files using `xml2::read_xml`. Comes with a few convenience features, such as the transformation of string lists to numeric vectors where meaningful.

Usage

```
read_xlum(file, verify = TRUE, output = "xlum_list")
```

Arguments

file	character (required) : path to file
verify	logical (with default) : enable/disable format validation
output	character (with default) : output object of the import, supported are "xml_document", "list", "xlum_list" (the default)

Details

Supported output options

"xlum_list" (default): imports XML-data and coerces them to list. Numeric values for level <curve> are transposed into [numeric](#) vectors for better handling

"list": imports XML-data and coerces it to a [list](#), no further treatment of data

"xml_document": unprocessed output from [xml2::read_xml](#)

Value

The output depends on the setting selected in output. It will be either an [xml2::xml_document](#), [list](#), or a [list](#) of class `xlum_list`.

How to cite

Kreutzer, S., 2022. `read_xlum()`: Import xlum files. In: Kreutzer, S., 2022. `xlum`: Read, Write, and Convert xlum Data. R package version 0.1.0.9000-17.

Author(s)

Sebastian Kreutzer, Geography & Earth Sciences, Aberystwyth University

Examples

```
file <- system.file("extdata/xlum_example.xlum", package="xlum")
read_xlum(file)
```

validate_xlum	<i>Validate xlum format against an XSD reference schema</i>
---------------	---

Description

A convenience wrapper around [xml2::xml_validate](#) against the reference format description shipped with [xlum-package](#)

Usage

```
validate_xlum(file)
```

Arguments

file [xml2::xml_document](#) (**required**): object to test

Value

Results of the validation [logical](#) with attributes

How to cite

Kreutzer, S., 2022. `validate_xlum()`: Validate xlum format against an XSD reference schema. In: Kreutzer, S., 2022. `xlum`: Read, Write, and Convert xlum Data. R package version 0.1.0.9000-17.

Author(s)

Sebastian Kreutzer, Geography & Earth Sciences, Aberystwyth University

Examples

```
file <- system.file("extdata/xlum_prototype.xlum", package = "xlum")  
validate_xlum(file)
```
